## Quote of the Day

"Our original projection for this year's budget deficit was \$423 billion. That was a projection. That's what we thought was going to happen. That's what we sent up to the Congress, here's what we think. Today's report from OMB tells us that this year's deficit will actually come in at about \$296 billion.

That's what happens when you implement pro-growth economic policies. We faced difficult economic times. We cut the taxes on the American people because we strongly believe that the American people should lead us out of recession. Our small businesses flourished, people invested, tax revenue is up, and we're way ahead of cutting the deficit -- federal deficit in half by 2009."

-- Remarks by President George W. Bush on the Mid-Session Review  
East Room (7/11/06)
